OUR INVESTMENT PHILOSOPHY

UNDISCOVERED

UNDER RESEARCHED

UNDER ESTIMATED

FUNDAMENTAL DRIVEN

Bottom-up sector agnostic research with focus on strong financials. We rely on comprehensive research into the core financials and business operations of companies which ultimately derive superior returns

MANAGEMENT LEADERSHIP

Spend considerable time in understanding management's vision, goals and priorities. Partner with owners who have demonstrated prudent capital allocation skills

LONG TERM VALUE

We adhere to long term investment horizon, making decision as though we are investing in the business of the company. The goal is to benefit from the compounded growth of these companies rather than reacting to short term fluctuations

RISK REWARD EQUATION

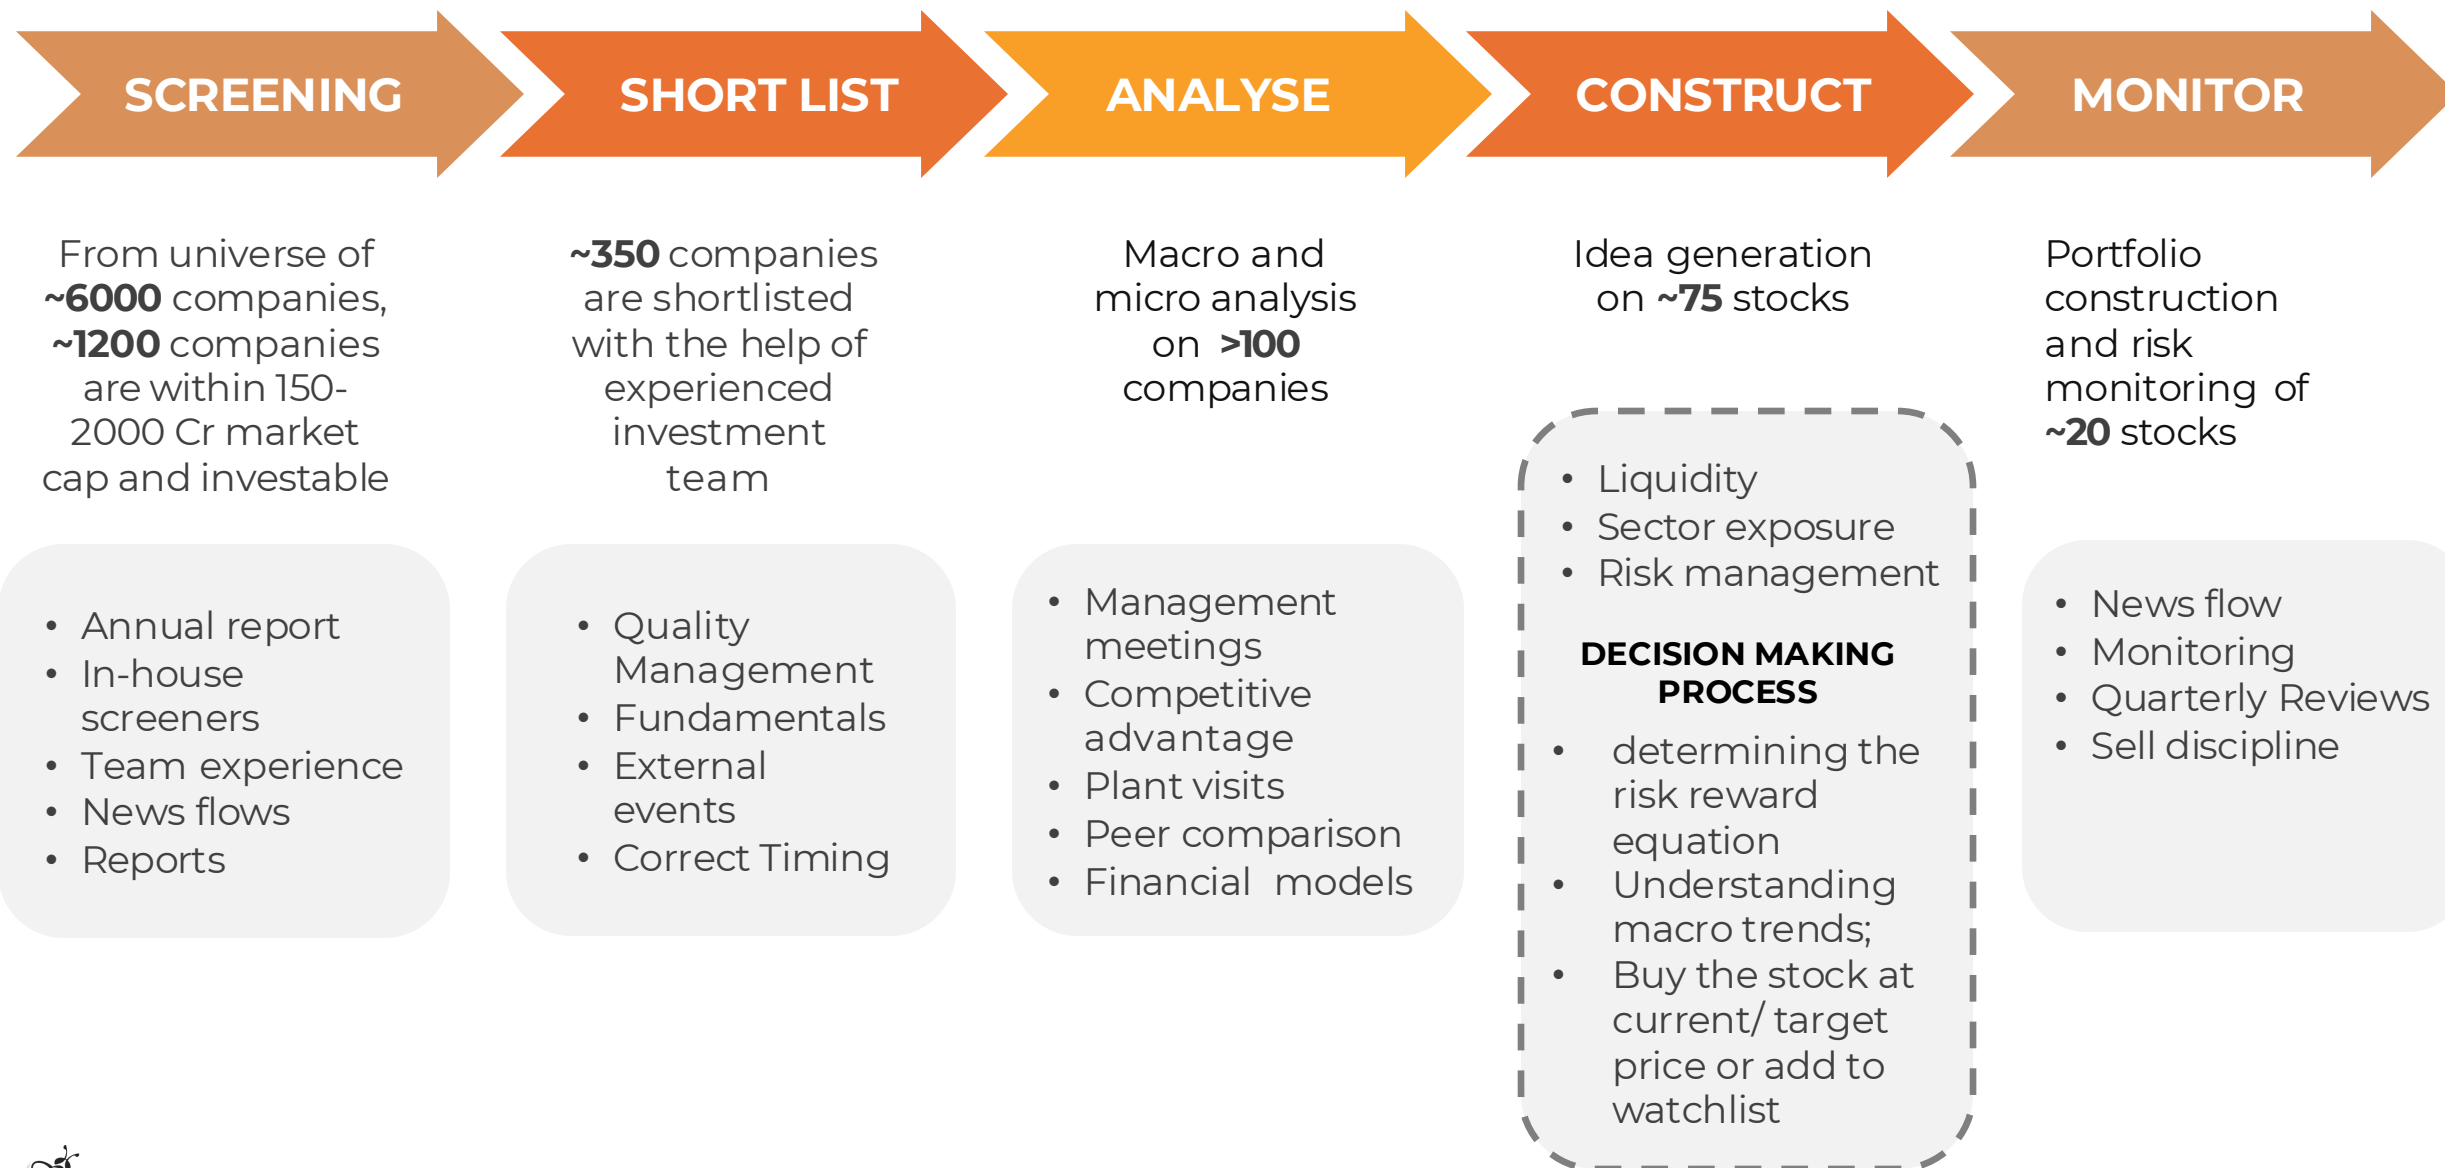

Investment decisions based on determining value in relation to price, not price alone, thereby assuring high margin of safety. The expected return must justify the risk we are going to undertake

OUTPERFORM BENCHMARK

Focus on consistently achieving good returns (outperforming the benchmark) while protecting the downside risk and not on achieving extraordinary gains with higher risk of capital erosion

STOCK SELECTION PROCESS

WHY WE FOCUS ON SMALL CAP INDIAN EQUITIES

GROWTH BOOM IN INDIA

India is undergoing a significant growth phase transforming itself from a developing economy to a developed economy. Several new companies and sectors are emerging in this transformation

FASTER GROWTH IN SMALL CAP COMPANIES

The robust growth environment is kindling the entrepreneurial spirit and creating huge opportunities for small sized enterprises in India.

We expect small sized businesses to grow at much higher rate as compared to the GDP

RECIPE FOR MULTIBAGGERS

There are several promising small companies that have capable and honest managements with sound business models

Early investment in such business creates access to rapid growth, which leads to valuation rerating and thus significant returns on investments

HISTORICAL PERFORMANCE

Nifty Small Cap Index has generated wealth at CAGR of 18.8% in last 10 years as compared to CAGR of 12.5% by Nifty 50

Small caps have accounted for 86% of total multibaggers (>3x) indicating a higher probability of generating wealth than large cap

MONEYBEE EXPERTISE

Moneybee has had exposure to several strong small sized businesses in advisory as well as investment capacity over the last 2 decades

Early investment in such undiscovered gems has been one of the biggest contributors to Moneybee's strong fund performance
