

Welcome, Moneybee.

WORK BEGINS 11 SEPTEMBER

Thank you for trusting me with the Moneybee project. We have already discussed the direction in detail. From 11 September, we begin turning it into the new Moneybee website and the systems behind it.

HOW WE WILL WORK

01 Website shell

First, we build the main pages and set the visual direction together.

02 Working systems

Once the design is approved, we connect the admin, fact sheets, CRM, careers, content, and analytics.

03 Finish and launch

We then add the agentic workflows, SEO, performance work, and final publishing checks.

BEFORE WE START

Please share the email address that should receive admin rights.

We will use it for the admin account, project notifications, shared access, and the relevant integrations as they are connected.

Looking forward to starting.
Aryan
